EDUCATION AND TRAINING

SECONDARY EDUCATION

Computer Systems Management and Programming Technician

Sacavém Secondary School • Completed in July 2026.

AWARDS

ARMIAC — Apps for Good 2026

- Winner of the Electronics for All by Synopsys category
- Centro-Sul regional finalist in the Secondary Education category, selected for the national final.

CAREER OBJECTIVE

Seeking a part-time opportunity in programming, web development or IT support, where I can apply my knowledge and continue developing my technical skills.

PROFESSIONAL EXPERIENCE

XPC INFORMÁTICA — IT INTERNSHIP

April – July 2026

- Developed an online store in PHP, HTML, CSS and JavaScript, with authentication, shopping cart, stock management and an admin panel.
- Implemented customer and administrator profiles and JSON data storage.
- Assembled and repaired computers, installed and repaired servers, and worked with software and networks.

FEATURED PROJECTS

ARMIAC — Intelligent Robotic Hand | 2026

- Developed a Flutter/Dart application to control a robotic hand using ESP32, voice commands and Wi-Fi/HTTP communication. Integrated electronics, 3D modelling and 3D printing.

School Clinic — Web Application | 2025

- Developed a PHP, MySQL and JavaScript application with authentication, email verification, appointment booking and cancellation, and email notifications.
